

MUSTN'T SNIPE, SAYS P. VILLA

Cautions His Commanders To Keep Peace While Pershing Withdraws.

An order against sniping at the American punitive expedition on its withdrawal from Mexico has been issued by Villa to all his troops, according to advices received here by government agents Tuesday afternoon. The order was issued so that there might be no excuse for the Americans to remain in Mexico as Villa, according to government agents' information, is desirous of having Pershing's troops removed in order to proceed with his campaign.

More Villistas Arrive.
Government agents have reports late Tuesday that in addition to the Miranda column of Villistas, located at Janos in the Galeana district, and the Murguía brothers' command at San Lorenzo near El Valle, Villistas bands are appearing at other points near the line of the American punitive expedition in order to occupy western Chihuahua.

200 Men Sent From Juarez.
The Carranza government is also making preparations to occupy the territory being abandoned by Gen. Pershing's command. Two hundred troops were dispatched from Juarez Tuesday afternoon over the Mexico North Western railway to Casas Grandes to be on hand to occupy Colonia Dublan, when Gen. Pershing evacuates. Three thousand troops were ordered from Torreon to move into northern Chihuahua, several days ago. This movement has been delayed because of the destruction of the railroad between Torreon and Jimenez.

TEXAS NATIONAL GUARD HAS 4905

Texas Naval Militia Has 145 Enlisted Men and 11 Officers.

Austin, Tex., Jan. 24.—Ad. Gen. Henry H. Hatcher, in his annual report to the governor, shows that on May 31, 1916, just two weeks after the guard was ordered to be mustered into the federal service for duty on the border, the strength of the guard was 197 officers and 2630 men and this number gradually increased until on December 31, 1916, the number of officers in the guard had reached 216 officers and 4905 men, or a total of 4905 in and out of the federal service.

Naval Militia Organized.
The report shows that the Texas naval militia was an organized company of a battalion composed of two deck divisions and a section of engineers and marines. The enlisted strength in 145 men and 11 officers, making a total of 156. The number of males of militia age in Texas, according to the federal census of 1910, is placed at 80,584. This force consists of all those liable to service in the militia but not serving in the national guard or naval militia.

FIGHTING NEAR SAN ANDRES; VILLA MOVING NORTH, REPORT

Passengers arriving late Tuesday night from Chihuahua reported that fighting between Carranza forces and Villistas had been in progress for several days in the vicinity of San Andres, west of Chihuahua city, and that wounded men had been brought into Chihuahua during the last few days.

Advices received here Wednesday morning by train men were that Villistas who have been reported in the San Andres district, have broken camp and are moving northward with his main body of troops toward Nacimiento. The Carranza official advices Wednesday were that Villa was in the vicinity of Rosario, near La Junta, west of Chihuahua.

SASSCARRANZA ONLY CANDIDATE

Col. Pineiro Predicts Mexican Elections By Feb. 15; Villa Only a Bandit.

That general elections in Mexico at which a president will be chosen will be held within the next six months is predicted by Col. Tomas Pineiro, an officer of Gen. Pablo Gonzalez's staff, who is here from Tacubaya, Mexico. Gen. Gonzalez's headquarters, Col. Pineiro is on a special commission from Gen. Gonzalez to visit the northern states and to make a report on conditions. He has just returned to El Paso from Casas Grandes, Ojinaca and other interior points in the state of Chihuahua and will leave within a few days to visit Sonora, returning from there to Mexico City.

New Constitution Feb. 15.
The new constitution will be promulgated by the Constitutional party delegates who are now in session at Queretaro, by the middle of February," said Col. Pineiro at Hotel Paso del Norte, Tuesday afternoon. "As soon as the constitution is adopted, it will only be a matter of six months before general elections are called. At these elections a president, governors, states and congressmen will be selected."

Carranza Only Candidate.
"There will only be one candidate for the presidency and that will be Venustiano Carranza. Gen. Alvaro Obregon and Pablo Gonzalez have already announced that they will not be candidates and have declared themselves as endorsing the candidacy of Carranza. They personally organized the Liberal Constitutionalists, the political club which is supporting Carranza's candidacy, and through this organization, other political organizations which have sought to nominate Gonzalez and Obregon have been informed by these generals that they would not be candidates and Gen. Gonzalez has announced that if his name is placed in nomination, he will leave Mexico for a period of three months during the political campaign, in order that he shall not be an obstacle in the way of Carranza's election."

Working In Accord.
Carranza, Obregon and Gonzalez are working in accord for the restoration of order. Of course they have minor differences of opinion at times and the military element does not agree with the civilian crowd, or "Renovadores," which are placing themselves around Carranza, but these differences are overlooked as the efforts toward establishing peace."

Villa Regarded as Mere Bandit.
Col. Pineiro said that Villa was not considered as a dangerous element in Mexico City. He is merely considered as a bandit by the constitutionalist officials.

"The people of the United States make too much of Villa," Pineiro said. "We do not pay half as much attention to him as the papers and people of the United States do. He is nothing but a bandit and will never be able to gain any power. Of course at the present time he is more a problem to the people than when he had a large army of several thousand men, as his depredations are committed against the small ranches. The campaign instituted by Gen. Francisco Murguía is being pushed against him and we hope to exterminate his band within a short time."

GEN. SPEAKS AND OHIO REGIMENTS GO TO FT. WAYNE

A change in the grouping of national guard organizations ordered to leave El Paso for their home stations, for mustering out was made Wednesday by Gen. George Bell, Jr. In the new arrangement the Fourth Ohio infantry will leave El Paso with the second group instead of with the first group, as it was first ordered.

The Fifth Ohio infantry and the Second Ohio brigade headquarters will leave with the third group instead of in the second.

Gen. Bell was advised from southern department headquarters Wednesday that the Fourth and Fifth Ohio infantry and the Second Ohio brigade headquarters would be moved to Fort Wayne, Mich., instead of to Fort Benjamin Harrison, Ind. The new grouping of the Ohio organizations resulted from this change. The Ohio cavalry will be sent to Fort Harrison.

Washington Not Concerned About Occupation of the Evacuated Territory.

By Associated Press.
Washington, D. C., Jan. 24.—Officials here were much interested today, but apparently little concerned, over growing evidences that a determined struggle for possession of the territory to be evacuated by Maj. Gen. J. Pershing's American forces in Mexico would soon be waged by Villa and Carranza forces.

Official dispatches said that Villa and Zapata, the most conspicuous revolutionary leaders, had allied themselves for operations against the de facto armies and that 8000 men had been concentrated near Chihuahua city for a Villa campaign in the north. Since Carranza declined to accept the Atlantic City protocol, officials have indicated that such problems as the one developed about Chihuahua not only would be left to Carranza for settlement, but that he would be held responsible by the United States government for their settlement in such a way as to protect American interests.

There were indications that the prospect of sending an ambassador Fletcher to his post had been made more indefinite by the developments connected in some quarters as a renewal of practices of the Carranza government against what the United States has protested repeatedly. Officials are surprised and perplexed over the drastic measures taken by the first chief against those whose military reserve recently was seized and by what some contend is a revival of persecution against Catholic clergy.

Loans Were Forced.
Information reaching the British embassy from an official of the Bank of London and Mexico and the National Bank of Mexico was that the bullion and specie taken from the banks was loaned only to the Carranza government. From the Bank of London and Mexico the amount taken was valued at \$4,000,000 pesos. The National bank's quota was \$900,000 pesos. Remaining in the vaults of the first \$15,000,000 pesos and the institution's officers fear this may also be removed. Agents of the de facto government are in possession of the building and the keys to the vault.

The problem presented by the seizure has been called to the attention of the state department again by representatives of the stockholders, who are for the most part British and French.

NO TIME IS SET FOR WITHDRAWAL

By Associated Press.
Washington, D. C., Jan. 24.—No more supplies will be sent to Maj. Gen. J. J. Pershing from the United States.

No specific time has been set for the withdrawal. The present movement from El Valle is on Gen. Pershing's own initiative and is based on his knowledge that the troops will not remain long in Mexico.

ASS. PROVOST MARSHAL CLARK IS NOW A CAPTAIN

First Lieut. Walter Clark, of company B, third North Carolina infantry, and assistant provost marshal, has been appointed captain of company B, and will assume the duties of that position at once.

Lieut. Clark was appointed as assistant provost marshal on the appointment of Capt. Charles Mott, Ely, several months ago. Prior to the call for the militia he was an attorney of Raleigh, N. C., and is the son of Justice Clark of the supreme court of North Carolina. A successor to Capt. Clark has not been named.

MAJ. A. S. HOUTS IS ACTING ADJUTANT 3D OHIO BRIGADE

Since the resignation of Maj. R. J. Palmer, adjutant of the Second Ohio brigade, encamped at East El Paso, Maj. A. S. Houts, formerly a battalion commander of the Fifth Ohio infantry, has been serving as brigade adjutant. Maj. Houts is from Cleveland. Maj. Palmer found, when he recently returned to Columbus, that his civilian duties as president of the Citizens Wholesale Supply company there demanded his exclusive attention.

CARRANZA TROOPS GET 700 BLUE OVERCOATS

A shipment of 700 overcoats for the Carranza troops has been received in Juarez from the United States and are being issued to the troops of the garrison. The overcoats were purchased from the French government and are composed of a condemned lot of uniforms manufactured in the United States. They are of the French military cut, of blue cloth with red lining.

TROOPS READY TO COME NORTH

Kits Are Packed and Are in Heavy Marching Order; Ready for the Command.

American troops at field headquarters, Colonia Dublan, Mexico, were marking time Wednesday, awaiting the formal order from Washington for them to start the long march to the border at Columbus. An official message received here from Casas Grandes stated:

All equipment was packed, the men had their kits arranged and were ready in heavy marching order for the official order.

Nothing was said in this message regarding the arrival of the El Valle, San Joaquin and Charcos outpost troops at field headquarters, reported Tuesday evening, but it was said at military headquarters here Wednesday that these troops were believed to have reached Colonia Dublan, followed by a small army of camp followers, refugees and native merchants.

Trains Start For Border.
The concentration of troops at Colonia Dublan has been completed, all surplus equipment, stores and baggage have been loaded and a number of truck trains have started toward the border, according to information received at the Carranza consulate here at noon. No troop movement north of the field headquarters had been begun at that time, it was said at the consulate.

Five truck trains consisting of 160 trucks arrived at Columbus, N. M., from field headquarters Tuesday. It was learned from passengers arriving here that the trucks returned south as soon as unloaded.

MEX. ELECTION SET FOR MARCH

Inauguration of President is To Occur May 1; Eight Hour Day For Labor.

By Associated Press.
Queretaro, Mex., Jan. 24.—It is learned on good authority that the national election will be held on the last Monday in March and that the president will take office May 1. This schedule probably will be incorporated in the constitution.

The constitutional assembly has approved an article providing an eight hour day and seven hours for night work. Children under 16 and women are prohibited from working from 10 at night to 6 in the morning, and children under 16 and over 12 cannot be employed for more than six hours a day or be subject to contracts.

The article also provides that masculine and feminine labor shall be equally remunerative under equal conditions, and that salaries shall be fixed by a special commission in each municipality, subject to the central board of conciliation. Agricultural, industrial and mining concerns are required to establish schools and hospitals, to provide proper quarters at reasonable rents, and are held responsible for accidents and occupational diseases. Provision is made for the payment of labor on a bonus or cooperative plan, and for the agricultural worker to share in the profits of his toil.
